THE ASYLUM RIGHTS PROGRAMME

Funded by the Welsh Government, the Asylum Rights Programme (ARP), a partnership of seven Welsh organisations, aiming to promote and ensure the rights of people seeking asylum and living in Wales in three ways:

- Ensuring that people seeking asylum know their rights and have support, where and when needed, to claim them.
- Ensuring that professionals working with people seeking asylum understand the needs of the people they are supporting, as well as their role in contributing to a Wales where rights are enjoyed.
- Informing and influencing public understanding about the right to asylum and the benefits of welcoming people in need to Wales.
